

MODEL 20XP

22" Capacity Whole Tree Chipper

Bandit's entry-level drum-style whole tree chipper has an amazing productive capacity, with a large 26 1/4" x 24 1/2" throat opening and engine options exceeding 300 horsepower. The Bandit Intimidator™ 20XP is great for companies that are looking for a cost effective, productive and compact whole tree chipper that is easy to tow and maneuver.

COMPACT, YET POWERFUL.

- Easily processes large trees and limbs
- Large 26 1/4" x 24-1/2" chipper opening
- Heavy-duty construction for years of dependable service

LIMITED PREP

The Intimidator 20XP easily handles tops and forked limbs because of the chipper's large throat opening and Bandit's proven Slide Box Feed System. This system features a powerful top feed roller that is 32" wide by 15-3/4" in diameter, and a bottom feed wheel roller that is 32" wide by 10-5/8" in diameter. The feed rollers are positioned within inches of the chipping knives, effectively controlling even the wildest trees and branches. This reduces trimming time and labor costs while increasing production.

CRUSH/COMPRESS MATERIAL QUICKER

Limby whole trees are chipped quickly and efficiently by the Intimidator 20XP with virtually no prep work required. The wide chipper opening and sloped infeed system help to crush, compress and funnel limby whole trees into the feed system, making it easy to feed and process stubborn material that rival chippers struggle to handle. And with aggressive engine options over 300 horsepower, the Intimidator 20XP has plenty of power to tackle big projects.

EFFICIENT PRODUCTION

The synchronized feed system never underfeeds the drum or forces material against it. The chip discharge system includes deep knife pockets, a smooth transition/discharge chute, and the Power Slot, discharging chips while using much less energy. This also significantly reduces idle time due to the more productive chipper infeed system.

TOP NOTCH SUPPORT

Whether you are supported by the Bandit factory or a dedicated authorized Bandit dealer, you can be confident that our team of trained professionals have the knowledge and dedication to serve all of your parts, sales and service needs!

Discharge: Hydraulic controlled 270° swivel discharge chute with 33" elbow radius		
Deflector: Hydraulic controlled 12" chip deflector		

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

SIGNIFICANTLY LESS MAINTENANCE

The Intimidator 20XP has a heavy, reinforced drum with internal support. The drum, feed system and related Bandit components should last the lifetime of the chipper and are backed by a five-year GUTS warranty. Solid welded construction with heavy-duty materials throughout the Intimidator 20XP help ensure long life and trouble-free performance with less downtime for maintenance.

MORE HIGH-QUALITY CHIPS PER LOAD

The Intimidator 20XP throws chips with more force due to the pocket design, smooth transition, smooth discharges, and the Power Slot. This impressive machine has been known to fill 40' semi-trailers in 45 minutes, and with Bandit's legendary chip throwing power you'll pack more chips per load. Chips from Bandit chippers have better uniformity compared to rival machines and often preferred by mills and biomass producers.
