

MODEL 1425

14" Capacity Horizontal Grinder

The Model 1425 is Bandit Industries' **most compact horizontal grinder available!** This unit condenses the essence of The Beast® into a compact package that can be towed by a pickup truck! The Model 1425 features the same downturning cuttermill, saw-style cutterbodies and teeth options as the larger Bandit horizontal grinders. And it is as **versatile** – able to quickly process tree branches, brush, sawmill tailings, logs and pallet waste!

MAXIMUM PRODUCTION

Every feature on the 1425 is designed to maximize the production from this compact package. The downturning cuttermill works with gravity and the feedwheel to control material. Special cutterbodies correctly size material as it's fed into the machine, saving on wear and tear while increasing production. And the replaceable screens let operators choose a spec. All these features are present on the larger Bandit horizontal grinders – and they're all available on the 1425 too!

ONE TOUGH BEAST

Just because the Model 1425 is capable of being towed with a pickup truck doesn't mean it's light duty. Bandit designed and built this machine every bit as tough as its larger horizontal grinders. This means all-steel welded construction. Superior components sourced from the best vendors.

COMPACT YET CAPABLE

The Model 1425 can process a wide variety of materials, from tree brush and even some whole trees to sawmill tailings, logs and pallet waste. The end product can then be turned into beautiful colored mulch with the Color Max system! Operators can fine tune their end product by choosing from unique cutterbodies and tooth options, so the end product can be perfect every time.

Bandit
EMPLOYEE-OWNED

Hand-Fed Chippers • Stump Grinders • Whole Tree Chippers
Horizontal Grinders • Slow-Speed Shredders

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

MODEL 1425 FEATURES

- Large Throat Opening**
 This machine features a large opening for such a compact unit, allowing for large material to be processed
- Unique Downturning Cuttermill**
 The Beast's unique cuttermill turns downward, working with gravity and the feedwheel roller to grind material
- Maneuverable and Towable**
 The compact size of the 1425 means it can fit into tight spots, and can be towed by a pickup truck – semi not required!
- Color Max Compatible**
 Bandit's Color Max system creates beautiful mulch using less water and colorant than the competition
- Changeable Screens to Help Size Material**
 Operators can select a screen to help correctly size the material on the first pass – saving time and money
- Optional Steel Infeed Conveyor**
- Optional Tandem Axles**

Bandit Offers a Complete Line of Tree Care Equipment:
 Hand-Fed Chippers • Stump Grinders • Whole Tree Chippers
 Horizontal Grinders • Slow-Speed Shredders
