

MODEL 2290

22" Capacity Whole Tree Chipper

Popular for its great combination of size, production, performance and price, the 22-inch capacity Model 2290 whole tree chipper is **a favorite for chipping** tops and brushy material, either in traditional logging operations or land clearing projects. Its 26.25" by 24.5" throat opening easily accepts large diameter, brushy material. Dual feed wheels in Bandit's unique Slide Box Feed System provide **the industry's best pulling and crushing power**, while aggressive chip throwing power fully loads trailers in approximately 35-40 minutes.

SUPERIOR PRODUCTION

Bandit whole tree chippers feature Bandit's unique infeed system, which combines to create one of the easiest feeding chippers on the market. The wide profile infeed design guides material toward the infeed rollers, and the powerful feed system keeps operators busy feeding the machine instead of repositioning material.

CONFIDENCE TO KEEP RUNNING

All Bandit Whole Tree Chippers come standard with an industry leading 5-year "GUTS" warranty covering the Bandit fabricated components of the drum and slide box feed system. These components are so durable and rugged Bandit is proud to offer this extended warranty as a standard feature

WIRELESS RADIO REMOTE CONTROL

A wireless radio remote control with tether back-up is standard. The remote will control all track and chipper feed system functions including engine E-stop. If the cab or loader option is ordered the remote is not included.

TOP NOTCH SUPPORT

Whether you are supported by the Bandit factory or a dedicated authorized Bandit dealer, you can be confident that our team of trained professionals have the knowledge and dedication to serve all of your parts, sales and service needs!

MAXIMIZE YOUR UPTIME

Bandit chippers are constructed to withstand rigorous chipping every day, all day. We use only the highest quality components and materials during construction to help ensure that your machine will be ready to go to work when you are.

Bandit
EMPLOYEE-OWNED

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

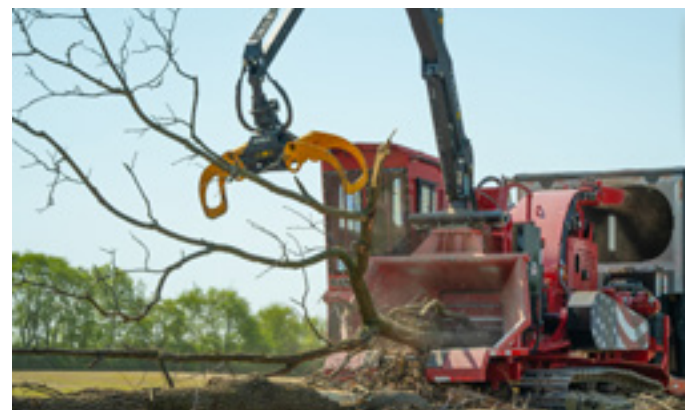

GO-ANYWHERE TRACK MOBILITY

Perfect solution for traveling over a wide variety of terrain settings reducing the need to forward or skid material.

OPTIONAL CAB AND LOADER

The 2290 track can be outfitted with a Kesla loader that can either be controlled by a wireless radio remote control or from a roomy operator's cab. Adding either configuration to your 2290 track will increase the versatility and capabilities of this unit!
