

MODEL 2590 TRACK

23" Capacity Whole Tree Chipper

The 2590 track is a mid-sized whole tree chipper designed for optimal maneuverability with maximum productivity. Bandit's proven **Slide Box Feed System** provides unmatched pulling and compressing power reducing the need to reposition material while feeding. This unit is an excellent choice for land clearing contractors, utility line clearing specialists, loggers, and fire right-of-way companies as it **can process material up to 23" in diameter** while still easily being moved from one chipping site to the next.

SUPERIOR PRODUCTION

The powerful dual wheel feed system provides a tremendous amount of pulling and compressing power to effectively collapse limby material into the chipper. A Caterpillar C18, 755 horsepower engine is available and produces a substantial amount of torque to chip trees of various sizes.

FULLY PACK TRAILERS

Bandit is known throughout the industry for packing chip trailers fuller and reducing the number of trips to the dump site. And Bandit can do it without the need of horsepower-robbing, fuel chugging chip accelerators.

MAXIMIZE YOUR UPTIME

Bandit chippers are constructed to withstand rigorous chipping every day, all day. We use only the highest quality components and materials during construction to help ensure that your machine will be ready to go to work when you are.

CONFIDENCE TO KEEP RUNNING

All Bandit Whole Tree Chippers come standard with an industry leading 5-year "GUTS" warranty covering the Bandit fabricated components of the drum and slide box feed system. These components are so durable and rugged Bandit is proud to offer this extended warranty as a standard feature.

TOP NOTCH SUPPORT

Whether you are supported by the Bandit factory or a dedicated authorized Bandit dealer, you can be confident that our team of trained professionals have the knowledge and dedication to serve all of your parts, sales and service needs!

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

TEST OUR METAL

When you choose a Bandit whole tree chipper, you'll experience more uniform chip production, smoother and more efficient chipping, long-lasting components and improved fuel economy. We invite you to see for yourself by scheduling a demo with your nearest authorized Bandit dealer.

GO-ANYWHERE TRACK MOBILITY

The Model 2590 Track comes standard with a Caterpillar steel track undercarriage. This feature allows it to travel over rough terrain not accessible by towable units. It also eliminates the need to forward or skid material to the chipper – the operator can take the chipper to the trees.

Bandit Offers a Complete Line of Tree Care Equipment:
Hand-Fed Chippers • Stump Grinders • Whole Tree Chippers
Horizontal Grinders • Slow-Speed Shredders
