

MODEL 4680XP

45" Capacity Horizontal Grinder

The Beast® Model 4680XP is a **high-production, no-compromise horizontal grinder**. With engine options up to 1,200 horsepower and a huge 45-inch by 60-inch mill opening, there isn't another horizontal grinder on the market that can match the 4680XP's level of production and performance. Whether turning large piles of waste wood into larger mulch piles, processing bulky chunk wood, cleaning up storm damage and debris after natural disasters or recycling shingles for hot-mix asphalt, the Model 4680XP is **simply unstoppable**.

ULTIMATE PRODUCTION

The Model 4680XP can process trees and logs nearly four feet in diameter. It can take extremely large volumes of brush and logging slash, and problematic chunk wood is easily devoured. The wide throat opening on the 4680XP also means it can out-perform every other horizontal grinder on the market, creating up to 800 yards of mulch per hour.

PRODUCE MORE, PAY LESS

The Beast's cuttermill utilizes a unique cutterbody holder that regulates the size of the cut. The result is a more uniform product using less energy to process material. This results in savings in fuel, wear and tear, and most importantly – time – because you get the right size on the first pass.

Standard & Custom Colors Available

Choose from two standard colors, or select a custom color to match your fleet.

Bandit Yellow

Green

MAXIMUM UPTIME

The Model 4680XP is built to stand up to any daily grind. Solid steel welded construction and the industry's best components combine to create a machine professionals can trust to perform. And when you need parts or service, turn to our worldwide network of authorized dealers who are ready to offer their support.

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

GO-ANYWHERE TRACK MOBILITY

Caterpillar 325EL steel track undercarriage can be added to the 4680XP. This feature allows it to travel over rough terrain not accessible by towable units. It also eliminates the need to forward or skid material to the grinder – the operator can take the grinder to the trees.

TEST OUR METAL

When you choose a Bandit whole tree chipper, you'll experience more uniform chip production, smoother and more efficient chipping, long-lasting components and improved fuel economy. We invite you to see for yourself by scheduling a demo with your nearest authorized Bandit dealer.
