

TJ-300

MOBILE JAW CRUSHER

| Easily Transportable

Weighing only 66,000 lbs the TJ-300 can be quickly moved from site to site without the need for special permits.

| Fuel Efficient Drive System

120HP electric drive system. Highly efficient with superior torque for low cost of operation.

| CAT® C7.1 Engine

300HP engine supported by an extensive dealer network for service support worldwide.

| Hybrid Design

Machine can run via on-board diesel genset or connect to external electrical supply.

TJ-300

KEY SPECIFICATIONS

Feeder _____ 11ft 6" x 38" VGF Standard
Chamber _____ 24" x 40" Jaw Opening
Diesel Tank Capacity _____ 140 Gallons
Control System _____ Push Button Control Panel
Weight _____ Est. 66,000 lbs (including magnet & side conveyor)

Main Conveyor _____ 40" EP630 HD Belt
Stockpile Height _____ 10ft 6" Discharge
Side Conveyor _____ 24" EP400 Belt
Stockpile Height _____ 7ft 2" Discharge

FEATURES & BENEFITS

Auxiliary Drive

Can be coupled with an external stacking conveyor for increased stockpile capacity.

Hydraulic Adjustment

The jaw's closed side setting (CSS) is hydraulically adjustable with no tools required to change output size.

Ideal Plant Size

Machine is perfectly sized for medium sized contractors requiring mobility & productivity. Eliminates the need for special permits when moving equipment from site to site.

User Friendly Controls

Simple to understand push button control panel for operation of machine functions.
